FR016 — sources/domain_model.md

Masterclass source package snapshot

Functional Requirement	FR-016
Edition	Engineering Learning Academy — Source Package snapshot
Status	
Audience	Academy generation and study (snapshot; SoT remains authoritative)
Document type	Source package snapshot (PDF)

Faithful rendering of a regenerable Masterclass source snapshot. Do not hand-edit; regenerate via python scripts/build_masterclass_package.py. Repository documentation remains the source of truth.

Contents

Multi-Agent Orchestration (FR-016)

Multi-Agent Orchestration (FR-016)

ADR: [ADR-008](#)

Spike: [eval/fr016_m0_engineering_spike.md](#) (Accepted with revisions)

M1: [eval/fr016_m1_orchestration_contracts.md](#)

Constrained multi-agent substrate (learning + future permission separation). Not strong near-term commercial automation. Prep/Truth/Review persona split rejected.

Concept	Role
OrchestrationGoal / OrchestrationRun	Parent DOS run (audit/recovery; not Opportunity SoT)
OrchestrationObservation	Derived cross-surface observation for routing
DelegationPolicy	Sole admission for specialist invocation
Handoff	Typed, append-only, idempotent specialist handoff
OBS / OperationalBrief	Read-only briefing specialist + derived brief
BOPA (child)	Frozen FR-015 specialist; mutating allow-list unchanged
Specialist registry	Static OBS + BOPA boundaries

M1 delivered: contracts + DelegationPolicy + OBS ToolPolicy + unit tests.

M2 delivered: DOS runtime, OBS, BOPA adapter, corpus A–O, go/no-go **GO AS LEARNING PROOF ONLY** ([eval/fr016_m2_supervisor_runtime.md](#)).

M3 delivered: `cic agent orchestrate owner CLI` ([eval/fr016_m3_owner_cli.md](#)).

M4 delivered: final corpus 20/20, safety/product review, study-aid source, freeze ([eval/fr016_m4_evaluation.md](#)).

Frozen: [acceptance](#).

Academy bridge: [masterclass/FR016/README.md](#).

Academy package: [masterclass/FR016/](#) (`MANIFEST.md` + `sources/`).
