

functional specification

FR017 — sources/functional_specification.md

Masterclass source package snapshot

Functional Requirement	FR-017
Edition	Engineering Learning Academy — Source Package snapshot
Status	**Complete / Frozen / Accepted
Audience	Academy generation and study (snapshot; SoT remains authoritative)
Document type	Source package snapshot (PDF)

Faithful rendering of a regenerable Masterclass source snapshot. Do not hand-edit; regenerate via python scripts/build_masterclass_package.py. Repository documentation remains the source of truth.

Contents

FR-017 Agent Evaluation & Observability

Phase: Horizon 1A Stage 11

Status: Complete / Frozen / Accepted ([eval/fr017_agent_evaluation_observability.md](#); [M4](#); [ADR-009](#); Academy [masterclass/FR017/](#)). Learning/substrate; **derive-only**; R1–R12; read-only `cic agent orchestrate metrics`; **must not block Horizon 1B**. Do not reopen without owner request.
(Originally planned as FR-016; renumbered 2026-08-05.)

Narrowed intent (M0–M4): orchestration-layer **derived metrics**, R1–R12, and thin read-only CLI over existing FR-016 audits — mirror FR-015 observability. Not a dashboard. Not a re-implementation of FR-008/014/015.

Historical laundry-list wording (traces, checkpoints, browser journeys, etc.) is **dispositioned in M0** — most items already owned elsewhere or out of scope.

Acceptance Criteria (frozen)

- Derived orchestration metrics from existing audits only (no DOS behaviour change).
 - Reconstructability R1–R12 demonstrated on offline corpus — M2 GO / M4 freeze.
 - Child AgentRun token/cost reused via FR-015 helpers when present (null offline OK).
 - Owner-operable read-only CLI (`metrics`, `metrics-corpus`) — M3.
 - Horizon 1B is **not** gated on FR-017 completion.
-
