

FR-017 M4 — Final Evaluation, Acceptance and Freeze

FR017 — `sources/optional/m4.md`

Masterclass source package snapshot

Functional Requirement	FR-017
Edition	Engineering Learning Academy — Source Package snapshot
Status	**Complete (M4)** — freeze evidence for FR-017
Audience	Academy generation and study (snapshot; SoT remains authoritative)
Document type	Source package snapshot (PDF)

Faithful rendering of a regenerable Masterclass source snapshot. Do not hand-edit; regenerate via python `scripts/build_masterclass_package.py`. Repository documentation remains the source of truth.

FR-017 M4 — Final Evaluation, Acceptance and Freeze

Status: Complete (M4) — freeze evidence for FR-017

Date: 2026-08-07

Acceptance: [fr017 agent evaluation observability.md](#) (**ACCEPT AND FREEZE — FR-017 COMPLETE**)

Architecture: [ADR-009](#)

Preceding: [M3](#) (Accepted); [M2](#) (Accepted — GO); [M1](#); [M0](#)

Does not begin: Horizon 1B implementation; dashboards; telemetry platforms; DOS/BOPA/OBS redesign.

1. Scope

M4 freezes the existing derive-only capability. It does **not** broaden FR-017.

2. Final corpus

`run_observability_corpus()` — **15/15 PASS**, `go_no_go=GO`, `deterministic_repeat_ok=True`. Coverage retained for all accepted M2 categories (success, deny, BOPA, OBS, prepare_then_brief, missing/zero metadata, orphans, missing join, stale, resume, loop stops, provider unavailable, contradictory, aggregate). No new categories required.

3. Owner manual validation

`scripts/run_fr017_m4_manual.py` — **PASSED**.

A persisted `prepare_then_brief` run reconstructs goal → observation → selection → delegation → lifecycle → child → stop → owner next → limits → idempotency → R1–R12. Fixture demos B–G and corpus H pass. Read-only proof I: persisted JSON unchanged; fixtures/corpus write-free.

4. R1–R12 / metadata / safety

Confirmed in acceptance §5–§8. PASS/FAIL evidence-based; missing ≠ zero; contradictions surfaced; no runtime mutation.

5. Product and learning

Low commercial value; high learning value. Remain narrow. Do not build dashboards now. Learning outcomes listed in acceptance §10.

6. Technical debt

Accepted / Deferred / Future FR / Out of Scope — acceptance §11. None implemented in M4.

7. Tests

FR-017 unit suites green; FR-015/016 CLI regressions green; M4 manual green.

8. Academy package

[masterclass/FR017/](#) registered in `scripts/build_masterclass_package.py`.

9. Recommendation

ACCEPT AND FREEZE — FR-017 COMPLETE
